

Avramis Despotis

As an enthusiastic educator, an authoritative voice in price action trading and an inspiring personal coach, Avramis Despotis has immersed himself in the financial markets for over two decades. Founder and CEO of Tradepedia, he is an expert instructor in technical analysis, risk management and behavioral finance and has mentored over 30,000 private and institutional traders.

Avramis has always had a penchant for knowledge. After graduating with a BSc degree in Economics from University College London, he went on to complete an MSc in Finance and Banking from the Athens University of Economics. He is a Certified Financial Technician from the International Federation of Technical Analysts, a member of the British Society of Technical Analysts and is certified by CySec for Portfolio Management and Own Account Trading.

Rounding off his extensive academic knowledge is a decade of experience that Avramis acquired as an interbank trader, during which he gained exposure to the foreign exchange, fixed income, commodities, equities and derivatives markets.

He is regularly called upon by top-tier global firms to provide expert-level training to their top traders, fund managers and risk assessors. Some of his satisfied clients include Reuters, HSBC, Deutsche Bank, Saxo Bank, Barclays Bank, MetaStock, Interarab Cambist Association (ICA), The Financial Markets Association (ACI), Kuwait Financial Markets Association, BNP Paribas, Société Générale, Arab Bank, Emirates NBD, Abu Dhabi National Bank, Menacorp, FxPro, ADSS, XM.COM and many more.

Prior to setting up Tradepedia in 2009, as a specialist in stocks and derivatives, Avramis correctly forecasted the drop of the world stock markets in 2007 and their subsequent rise in 2009. He is a renowned trader in his native Greek stock exchange, where he publicly predicted the stock market fall from 2500 to 500 points in numerous publications and popular news sites. He is an authority in forex – his favorite market –, and his analyses are being bought and redistributed to clients by forex platforms and stockbrokers worldwide.

“ *We believe that with the right tools and guidance anyone can learn to trade the financial markets. Our promise is to continue sharing our knowledge and inspiring our students to help them surpass their limits and their expectations* **”**
